## Attestation of Requirements for Supervisory Skills Development Webinars

Before registering you must have achieved the following:

- Advanced Certified Schema Therapist as of \_\_\_\_\_ (please attach a copy of certificate).
- Two Years of Experience as an Advanced Certified Schema Therapist.
- Experience providing schema therapy to at least four clients for six months or more duration (at least 20 sessions each); of these, two must have a diagnosis of a personality disorder (or severe personality disorder traits).

You will need to attend all four webinars for a total of twelve hours of training. If attendance at one of the webinars is not possible, a valid reason is required and you will be able to take the missed one at the next offering. Please note that it is permitted to miss only one webinar and it may be 6-12 months before being offered again.

After completing the first of the four webinars you will be able to begin certification supervision for a maximum of TWO supervisees. During this time as a supervisor candidate you are required to:

- a) have regular supervision of your supervision with a certified supervisor – trainer, for every 2-3 supervision sessions you provide. This needs to total a minimum of SIX HOURS of supervised practice.
- b) Use the STSVRS to discuss supervision experience.

Please note it is encouraged that you apply for your supervisor status within 12 months of doing the webinars. Some people may finish within 12 months, but it should not be in less than 6 months.

**Please put an X in the box below.**

I understand that the webinars are only financially feasible based on the guarantee of a minimal number of accepted participants. Once my application is accepted and monies have been paid, there will be no refunds under any circumstances.

**I agree that by placing an X in the box above and by writing my name, signature and date on the line below I am accepting these terms as binding.**
